Top spin

Pin drilling unit

tool included

easy use

The Top spin pin drilling unit offers additional precision, safety, and durability. Its exceptional concentric precision and special drill technology make it unique.

Advantages

- Drilling precision of ≤ 0.01 mm thanks to sophisticated shaft-bearing technology.
- High-torque motor with no power loss when drilling (8000 rpm).
- Extremely easy drilling with no resistance thanks to a special drill geometry.

Details

- Two unit positions and different gripping options for fixing the dental arch in position enable an individual, ergonomic working posture.
- The individual, infinitely variable drill-depth setting of 0–20 mm (0–0.79") also allows drilling for pin systems with resin plates.
- With adjustment it is also possible to use drills with a longer shaft.
- Compact design with a high degree of stability.

Safety and simple operation

- The special drill geometry reduces the force during drilling by up to 50%. This means safety, even with dental arches that are at risk of fracture.
- A quick-release mechanism enables easy, tool-free drill change.
- The unique dust control and easily removable dust drawer with a filling level overview ensures a clean, comfortable workstation.

The special drill geometry reduces the force during drilling by over 50%, thus reducing the risk of breaking dental arches

Technical data

Permissible mains voltage	100–240 V
Permissible mains frequency	50/60 Hz
Power consumption (during drilling)	12 W
Power consumption (Stand by mode)	0,7 W
Laser Class	2
Rotational speed	8000 rpm
Dimensions (W x H x D)	153 x 330 x 175 mm // 6.0 x 13.0 x 6.9"
Permissible drill shaft diameter Ø	3 mm (± 0.03 mm)
Permissible drill length	34–46 mm // 1.34–1.81 "
Weight	~4 kg // ~8.8 lbs
