making work easy

SILENT XS

NEW The mobile suction unit for precise touch-ups

NEW SILENT XS

The mobile suction unit for precise touch-ups

SILENT XS is a fully mobile suction unit, specifically designed for dental offices and in-house laboratories. Its compact design is impressive, and makes it ideal for minor, small-scale finishing work - for example when working on temporary restorations, splints or dentures. With its high suction power, it collects debris right at the source and ensures a clean working environment. Thanks to battery operation, the device can be moved flexibly between different locations. Its low-noise operation makes it the ideal companion for efficient work - even during mobile applications.

easy use

silent

perfect view

compact

Advantages

- Flexible – cordless and battery-powered for maximum freedom of movement – from chairside to in-house laboratory.
- Simple – one-handed operation and LED lighting for an optimum view of the workpiece. Perfect for quick grinding tasks.
- Clean – clean working air and effective dust protection thanks to H13 / HEPA filter with 99.99% collector efficiency. Bag-free.

Details

- Low-noise operation for a calm treatment environment.
- Compact design for space-saving integration and easy storage.
- Long operating times thanks to battery and mains operation.
- Easy to clean with smooth, disinfectable surfaces in a validated process.
- Easy to use with ergonomic design and one-hand operation.

Effective dust collection with practical protective grille – for clean and safe work
